

Commercial Laundry Program

A complete industrial wash chemistry from break to soften, backed by local service and supply.

Institutional clean from eco friendly chemistry, dosed accurately on every load.

INSTITUTIONAL

5 Step Laundry System

Consistent, hygienic results load after load. A complete wash chemistry for commercial and institutional laundries, sequenced from break through soften.

1	2	3	4	5
BREAK	WASH	BLEACH	SOUR	SOFTEN

Chem Power

Concentrated laundry break which enhances alkalinity for better soil dispersion

Chem Wash

Powerful phosphate free laundry detergent

XL-83

Heavy duty industrial laundry bleach for whites only

Chem Sour

Laundry sour for neutralizing alkalinity of the wash

Chem Soft

Fabric softener and conditioner

WHAT IS INCLUDED

Installed, dosed, and supplied

- Installed on site as individual dispensing containers fed by an included calibrated dosing system, so every cycle gets the right dose with no guesswork and no waste.
- Phosphate free, eco friendly chemistry that is gentler on fabric, staff, and waste water, helping linens last longer.
- Supplied in 20L pails and 200L drums and backed by local service in Barbados, so supply stays steady and help stays close.

BEYOND THE FIVE STEPS

Chem Clean Laundry Support

Targeted products that ride alongside the core wash to lift stains, brighten colours, and cover everyday laundry needs.
